Guiding sector growth.

The Food System Hub provides crucial support. Assessments inform sustainable strategies. It guides the Agrifood Sector strategy. Eco-Hubs play a vital role.

Key Challenges

1

Stakeholder Engagement

Ensuring inclusive participation.

2

Economic Analysis and Costing

Evaluating pathway economics.

3

Monitoring and Evaluation

Tracking progress and impact.

4

Digital Dashboard

Creating a real-time overview.

Critical challenges need addressing. They include stakeholder engagement and economic analysis. We must improve monitoring. A digital dashboard will help.

Plan

Food system dashboard

Develop a monitoring tool.

Implementation and costing

Execute pathways effectively.

Stock-take of the pathways

Assess current progress.

Review and revise pathways

Adapt for better results.

Our plan focuses on key actions. We will implement and cost the pathways. The goal is to create a stock-take. This review will revise national pathways.
